Invitation

Dear Colleagues,

We are happy to inform you that a special one day CNE Program on Critical Care and Safe Nursing Practices has been organized for the nursing fraternity. The Program would be held at the JL Auditorium, All India Institute of Medical Sciences, New Delhi on Sunday, the 24th October, 2010. Patient care Safety including Critical care are two most important areas that requires precision, knowledge and attention by all medical personnel. Only the regular updates can keep the nursing fraternity abreast with the new developments and current thought processes in the field. The National and International faculty would participate and discuss the practices in the fields, being followed around the world.

The most important significance of this Conference is that it would be held as a part of the III World Congress of Pediatric Surgery, being organized in New Delhi from October 21-24, 2010 at the Hotel Taj Palace. Over 1500 eminent intensivists, pediatric and neonatal surgeons, urologists, laparoscopic surgeons and others would be participating from over 100 countries. The apex congress is held once in 3 years and held under the aegis of World Federation. Thus, very high level scientific deliberations during the conference are ensured.

The scientific program would include state of the art lectures by the invited guest faculty not only from India but also from the leading teaching centres in the world. The Presidents of the World Federation, the Asian Federation and the SAARC Federation and the Indian Association would also be joining. There would be a quiz at the end of the program. There would also be a poster competition to encourage the B.Sc / M.Sc nursing students to actively participate. Two best posters would receive an Award of Rs. 1,000/- and a certificate.

The topics would be of special relevance to the students, institutional nursing staff and also the nurses working in the corporate /private sector, involved in teaching and the intensive care to the sick newborns, children and adults. The detailed program is enclosed. Sufficient time would be given for interactive discussions between the delegates and the speakers. All the participants would be given Certificates of attendance at the end of the program.

Thus this would not only provide an opportunity to learn from the experts but also strengthen the bond between the doctors and nursing staff to work as a team for improving the standard of patient care and safety. This is an opportunity not to be missed.

We request the Medical Superintendents and Chief Nursing Superintendents of the teaching Institutions and the corporate sector to nominate and register 5 nurses each for the course.

We invite you to participate with your colleagues and friends and enjoy the scientific extravaganza.

Yours Sincerely,

Dr Devendra K Gupta
Organizing Chairman

Dr Shilpa Sharma
Organizing Secretary

Ms Harvinder Kaur
CNE Co-Ordinator
