

Comments by a sitting member of Parliament of Bangladesh is given below

"Lastly I must mention to you about how my husband and I felt at the AIIMS. We read about your reputation globally as an authority in your field. We are also told by our brother, Professor Taimor Nawaz, about how excellent an institution AIIMS is. It not only lived up to our expectations, it exceeded that as well. The service was superb! You yourself, Dr. Vikraman, Dr. Khanna, Dr. Behra and the nurses, all of you made our experience at AIIMS an unforgettable one. Except for the leaking cistern pipe of the comode in the toilet (which is very very little compared to the problems faced in the public hospitals in our region!) everything was perfect! The service that was needed was delivered with much care and expertise. Being a person who has great faith in the quality of experts in our public facilities in the health sector and always going to these facilities for services for myself and my family, it felt great to have my faith reinforced! Therefore, kindly accept our gratitude and thanks and please convey these to your colleagues in your Nephrology Department"
